MATT FAJKUS ARCHITECTURE jun. 2016 - jan. 2017
 Austin, Texas | Architecture Intern | Categorized as a thinktank extension to the small scale MF Architecture team, various concept iterations were presented. From unbuilt design competition research and model making, to wedding venue concepts and presentation renderings, the work completed reached various stages and opportunities in the design field.
COOPER CARRY sept. 2015 - may 2016
 Alexandria, Virginia | Architecture Intern | Daily tasks included resolving a large, mixed-use building in Washington, D.C. by integrating code parameters and optimizing stair plans/sections in Revit. Because of the designs ever changing state in the design development phase, communication with consultants was necessary.
DNA WORKSHOP jun. 2015 - aug. 2015
 Baton Rouge, Louisiana | Architecture Intern | Because of the architecture firm's unique placement next to its own shop, responsibilities included fabricating various objects for private and public work, including bar tops, cabinets, concrete slabs and privacy screens. The work also included site surveying various existing houses for renovation.
